

KAISER PERMANENTE®

2018 - Present

Kaiser Permanente uses Hexagon-ml platform for their internal data science competition platform. Since 2018 they have reduced their time to host competition from 4 weeks to 30 mins and increased their participation from 80 employees to 500 employees.

Employees

Submissions

Competitions

Hexagon-ml's secure collaboration platform, discussion forum, trainings, code sharing and blogs have created a data driven and rich community of analysts.

Hexagon-ml has helped Kaiser Permanente to scale our analytics quotient and increased collaboration within our siloed environment.
